NAME

vncconnect - connect a VNC server to a VNC viewer

SYNOPSIS

vncconnect [-display Xvnc-display] host[:port]

DESCRIPTION

Tells **Xvnc(1)** to connect to a listening VNC viewer on the given host and port.

SEE ALSO

vncviewer(1), vncserver(1), Xvnc(1), vncpasswd(1)

AUTHORS

Original VNC was developed in AT&T Laboratories Cambridge. TightVNC additions were implemented by Constantin Kaplinsky. Many other people participated in development, testing and support.
