NAME

vncconnect − connect a VNC server to a VNC viewer

SYNOPSIS

vncconnect [−display *Xvnc-display*] *host*[:*port*]

DESCRIPTION

Tells **Xvnc(1)** to connect to a listening VNC viewer on the given host and port.

SEE ALSO

vncviewer(1), **vncserver(1)**, **Xvnc(1)**, **vncpasswd(1)**

AUTHORS

Original VNC was developed in AT&T Laboratories Cambridge. TightVNC additions were implemented by Constantin Kaplinsky. Many other people participated in development, testing and support.
