NAME

      remove-shell − remove shells from the list of valid login shells

SYNOPSIS

      remove-shell *shellname* [*shellname…*]

DESCRIPTION

      remove-shell operates on the temporary files */etc/shells.tmp* and */etc/shells.tmp2* to remove the given shells from the list of valid login shells, and copy the result back to */etc/shells*.

SEE ALSO

      shells(5)
